### Description

Used Kubota RTV900 wear 2013, hydraulic tipping body, roof, windscreen and wipers, 537 hrs warranted good working order. This kubota RTV 900 has only been used in a large machinery compound and has done very little work. Combining an innovative three range Variable Hydrostatic Transmission (VHT) with in-board wet-type disc brakes, the RTV900 offers dynamic braking and automatic power boost when climbing slopes. Built to endure years of grueling punishment, the RTV900 features an advanced suspension system and offers ample ground clearance for a safe, comfortable ride over any terrain.
